**Notes:**

## Washington State Utilities and Transportation Commission (WUTC) Permitted Solid Waste Carriers in Adams County (November 4, 2002)

Registered Trade Name of Solid Waste Company	Service Area	Certificate# (G permit)	Tariff #	Collect and Transport: MSW	Collect and Transport: Recyclables	Collect and Transport: Yard Waste	Residential Disposal Rates for Weekly Garbage Service by Container (Monthly charge in dollars)	Recycle Service Charge (When Taken With MSW Service)	Commercial Disposal Rates for Company Owned Containers (per Pickup, Non-Compacted Material)	Referenced Service Level Ordinances
Consolidated Disposal Service, Inc.	Western Portion of Adams County	G-190	6	Y	N	N	20 gallon mini-can \$8.35 32 gallon can/unit \$9.75 60 gallon toter \$16.40 90 gallon toter: \$18.95 Multi-can/unit service up to 6 offered.	Not Applicable	60 gallon toter: \$3.79 90 gallon toter: \$4.38 1 yard dumpster: \$9.70 1.5 yard dumpster \$13.20 2 yard dumpster \$18.65 3 yard dumpster \$28.00 4 yard dumpster \$33.35 6 yard dumpster \$38.45 8 yard dumpster: \$42.85.	None Indicated

**SINGLE FAMILY RESIDENTIAL SERVICE:** None.

**COMMERCIAL SERVICE:** In tariff, 60 and 90 gallon toter service is defined as "Monthly Charge Weekly Service". Monthly rates provided in tariff were divided by 4.33 to arrive at the per pickup charge provided herein.

### General Notes

- The above solid waste carrier information is portrayed **for WUTC regulated solid waste carriers only**.
- Categories of solid waste customers defined by the WUTC include: single family residential, multi-family residential and commercial. **Multi-family rates are not depicted here.**
- Categories of commercial solid waste collection service as defined by the WUTC include: "Container Service - Non-Compacted - Company-owned container"; "Container Service - Non-Compacted - Customer-owned container"; "Container Service - Compacted - Company-owned container"; "Container Service - Compacted - Customer-owned container"; "Drop Box Service - Non-Compacted - Company-owned drop box"; "Drop Box Service - Non-Compacted - Customer-owned drop box"; "Drop Box Service - Compacted - Company-owned drop box"; "Drop Box Service - Compacted - Customer-owned drop box". **The only Commercial rates provided here are: "Container Service - Non-Compacted - Company-owned container".**
- According to statute, Washington State cities have the authority to contract for solid waste hauling services and associated billing, or to provide their own municipal collection service. Counties have not been granted this option by the legislature. However, statute does direct the WUTC to require regulated solid waste collection companies to comply with the service levels set in the local solid waste management plan. The WUTC defines the service area and monetary collection rates for private firms that service all county residents, as well as for private firms that service those municipalities which do not provide garbage collection service or contract for such service.
- **Of the 280 cities in Washington, 187 take advantage of their option to contract for service or provide their own service. Consequently, the WUTC regulates the solid waste haulers that service approximately 49% of the state's population.** (This includes 40% of the state's population that resides in unincorporated areas, and 9% of the state's population that resides in incorporated areas.)
- Currently, there appears to be no complete tabulation of solid waste collection rates charged to residents of Washington State municipalities is available, and thus there is incomplete knowledge of the direct economic impacts of solid waste disposal on approximately 51% of the state's population.
- [A Certificate \(or "G-permit\) means the certificate of public convenience and necessity issued by the Washington Utilities and Transportation Commission](#) under the provisions of chapter 81.77 RCW for the operation of solid waste collection companies.
- A tariff names rates for the collection, transportation, and disposal of solid waste, and if noted, recycling and yard waste (a document outlining rates, terms and conditions for providing service.) While the G-permit provides an overall legal description of the geographical area in which a carrier is allowed to operate, a tariff defines rates for services and service areas within the geographical area defined in the G-permit. Further, tariffs define the rates a permitted solid waste carrier charges to its residential, multifamily and commercial customers

<b>COUNTY TOTAL</b>					<b>0</b>	<b>0</b>	<b>0</b>	<b>0</b>	<b>0</b>	<b>0</b>	<b>0</b>	<b>0</b>	<b>0</b>		<b>0</b>	
<b>STATE TOTAL</b>			<b>94972.14</b>	<b>79282.89</b>	<b>57415.12</b>	<b>4417.09</b>	<b>8349.74</b>	<b>174.72</b>	<b>1729.2</b>	<b>4292.72</b>	<b>2904.3</b>	<b>3646.08</b>	<b>14988.03</b>	<b>25840.11</b>	<b>79282.89</b>	

- 1) Data used here are gathered from individual facilities and consolidated into a main database from which this spreadsheet is derived. Referral to the actual report forms is suggested in order to resolve questions or before drawing conclusions.
- 2) Facilities which show zero production are for year 2002 only. Production amounts can vary by large amounts from year to year depending on lagoon cleanout operations, etc.
- 3) For the categories related to TRANSPORT TO and RECEIVED FROM, tonnage sums are totaled and reported in parentheses if the sums are different from that reported by the facility. Reasons for discrepancies are varied and need to be investigated on an individual basis if needed.
- 4) The term "ctd." means that the data for the facility is continued in another column where extra lines were used so that additional data could be included.
- 5) WWTP = Waste Water Treatment Plant; STP = Sewage Treatment Plant; BS = Biosolids; LSP = Lime Stabilization Plant; POTW = Publicly Owned Treatment Works.

### Adams County Solid Waste Priorities and Needs for the Near Future:

- Expand public education and school programs; establish waste exchange network; promote backyard composting program; evaluate variable collection rate structure; promote waste reduction programs in offices and public agencies; support private industry and business waste reduction through waste audits; establish non-financial incentive program to recognize outstanding waste reduction
- Implement curbside recycling in Othello and Ritzville
- Maintain drop-off centers in towns; encourage use of drop-off centers by rural residents; maintain drop-off facilities at transfer stations; sponsor industry recycling through audits
- Continue waste export out of county landfill
- Continue policy of recycling automobiles and appliances
- Seek cost effective alternatives for recycling used tires
- Develop a control program to monitor the sources, handling, and disposal of infectious waste generated within the county.

### Adams County's Projected Solid Waste Income and Spending, 1999 (as compiled by Jeff Kelly-Clarke, Director, Snohomish County Public Works)

#### Spending

Total Spending	Waste Handling*	LF Monitoring	Waste Reduction and Recycling	Moderate Risk Waste	Planning	Administration	Debt Service	Other	Capital Facilities/ Closure	To Fund Balance	Operating Budget
\$2,692,000	\$250,000	\$2,000	\$420,000	\$90,000	\$0	\$1,930,000	\$0	\$0	\$0	\$0	\$2,692,000

\* "Waste Handling" includes transfer operations

#### Income

Total Revenue	Fees from Disposal	Other service fees	Dist./city fees	Grants	Interest	Fund Balance	Other	Total Revenue
\$2,692,000	\$462,200	\$48,650	\$60,000	\$6,350	\$0	\$224,255	\$0	\$2,692,000
